

ECODISTRICTS SUMMIT

THE ONLY CONFERENCE DEDICATED TO NEIGHBORHOOD-SCALE
EQUITABLE & SUSTAINABLE DEVELOPMENT

2019 SPONSORSHIP PROSPECTUS

Pittsburgh, PA | Fall 2019

The annual [EcoDistricts Summit](#) is where urban and community development leaders come to reimagine cities from the neighborhood up. In the Fall of 2019, the Summit is coming to Pittsburgh, a city that is experiencing a breakthrough in urban regeneration, fueled by a generation of leaders that are harnessing the city's civic and corporate entrepreneurship, thriving arts and culture community, regional approach, and dedication to creating opportunity for all. From the established Millvale Ecodistrict to the emerging neighborhoods of Etna and Uptown, the EcoDistricts momentum in Pittsburgh is leading the way for cities across the country. *Pittsburgh is undergoing an EcoDistricts revolution.*

In 2019, EcoDistricts will welcome over 400 urban change makers – community development professionals, green builders, municipal innovators, urban design and planning practitioners, and civic entrepreneurs – to Pittsburgh to co-design the neighborhoods of the future. Together, we'll dig in and unpack cutting edge projects and the region's urban development legacy, explore innovative projects, and uncover important breakthroughs. **JOIN US!**

 EcoDistricts
SUMMIT 2019

Six Dynamic Program Tracks, Tours, Powerful Keynotes

Program Tracks	Description
Health + Wellbeing	Deep dive into projects focusing on upstream determinants of health. Explore communities anchored by major healthcare institutions.
Climate Resilience	Explore the latest methods from cities adapting to the stresses of climate change and learn about efforts underway in Pittsburgh to address the results of changing climate patterns.
Creative Placemaking	Learn about how communities use arts and culture to connect residents and build a strong sense of place. Explore how historical and cultural identities contribute to thriving neighborhoods.
Green Infrastructure	Exploring ground-breaking clean technologies and high-quality design for energy, buildings and infrastructure. Discuss efforts to create thriving equitable urban communities with environmental benefits.
Equitable Development	Build social, economic and environmental justice into every project capacity-building for community organizations and leaders. Ensure that project outcomes are analyzed according to goals and benchmarks.
District Energy + Water	Learn from case studies of world-class systems, financing and ownership models, and system design. Explore methods to build cross-sector partnerships.

Who Attends the Summit

Since 2009, the EcoDistricts Summit has welcomed over **2,300 attendees** representing 350 cities, **40 states**, and **14 countries**. The Summit draws a diverse, multi-sector audience of leading city makers — developers and designers that are testing the latest approaches to urban design and placemaking; equity leaders who are righting the wrongs of redlining, economic and racial segregation; citizen planners and activists that are creating real-time solutions for neighborhoods and residents; and clean tech and environmental leaders that are changing how we create and harness energy. We welcome the opportunity to customize a sponsorship and business development package to meet your business objectives.

“ The EcoDistricts Summit Convenes the most diverse, dynamic group of attendees I have ever seen at any conference anywhere. ”
